Engineers and Land Surveyors

Visions 8

Segmented retaining wall along Beuth Road

Pedestrian and Bicycle Trail running parallel along Park Avenue

Storm water management culvert for major drainage area adjacent to roadway

Example of condition of the pavement replaced as a result of this project

The Pedestrian and Bicycle Trails running along Beuth Road and Park Avenue meet all **AASHTO** requirements for walking and biking trails. Citizens of all ages are enjoying these new trails.

CONTRACTOR: Emery Sapp and Sons, Inc.  
Columbia, Missouri

Concrete roadway ready for traffic

Construction cost for the Beuth Road and Park Avenue project totaled \$1,200,000, funded entirely through City of Moberly Capital Improvements Funds. Construction on this project was completed in record time.

This **VISIONS** publication highlights the recently completed Beuth Road and Park Avenue Project for the **City of Moberly, Missouri**
